

## Questionnaire

1. Is the app relatively easy to use?

I think it is easy because I had basic knowledge about the apps but I think it should be alright for others because there is a tutorial inside

2. What is your impression when you use the app for the first time?

Very nice layout and the colour is very comfortable

3. Do you think the overall layout is easy to understand for beginners?

yes

4. How is your experience of taking sample while using the application?

it is quite simple although the procedure is quite long and there is a lot of ->Done/continue etc

5. Which feature of the application did you enjoy the most?

definitely the dark mode!! But it is because I am not an expert in checking water's quality so I am not sure how long the procedure usually takes(to compare).

6. How would you rate the overall quality of the application? (scale of 1 to 10)

8

6. How likely would you recommend this application to people within the profession?

yup

7. Do you have any suggestions or comments for improving the application?

Maybe a way to save our procedure which we can visit later? for example, save a single progress in the async storage and revisit after 1 or 2 hours

Device: Huawei P30 Pro
